a. REGIONAL EVALUATION

We today examined the loan application forms

of SACCO Society Limited.

In our opinion:

- i. The purpose for which the loan application has been made is genuine. We therefore recommend that the above named Society be considered for the total amount of the loan applied for.
- ii. The Society cannot justify the need for the amount applied for. We recommend that the society be considered for a loan of Kshs.
- iii. The Society cannot comfortably service a loan of Kshs. without interfering with the day-to-day running of the Society. We therefore recommend that the society be granted a loan of Kshs. to ease the burden of repayment.
- iv. The Society should not be granted the loan as it does not maintain proper records and books of accounts.
